Is Europe disintegrating? Can open society survive? How will we overcome the economic crisis? Will Europeans feel secure again?

Counter Revolution is a bold attempt to make sense of the extraordinary events taking place in Europe today, examining the developing counter-revolution and exploring its roots and implications. This book suggests that Europe and its liberal project need to be reinvented and recreated; Manuel Macron and Angela Merkel will not produce wonders. Europe failed to adjust to enormous geopolitical, economic, and technological changes that swept the continent, and European models of democracy, capitalism, and integration are not in sync with new complex networks of cities, bankers, terrorists and migrants. Liberal values that made Europe thrive for many decades have been betrayed. This book examines these different aspects, proposing a way out of the labyrinth.
